BOARD QUESTION PAPER: MARCH 2022

				GEOGRAPH	łΥ				
Time	: 3 Hrs	5.						Max. M	arks: 80
(1) (2) (3) (4) (5) (6)	All qu Drav Use (Use (Figur	v relevant of colour of map st res to the	are compulsory. t diagrams / graphs where pencil is allowed. tencil is allowed. tright indicate full marks. lement of map to your ma						
Q.1.	Ansv (A)	wer the s	ı.c.	[20 (5)					
	(~)	Complete the chain according to S.No. A		B		C C			(3)
		(1)	Antarctica	Modern type of agriculture		No permanently resident population			
		(2)	Metropolitan City	Atlantic Ocean		More use of Capital			
		(3)	Market Gardening	Permafrost		Economic Geography		graphy	
		(4)	Panama Canal Human Geography	Population Geography Million City		Mumbai Pacific Ocean			
	(B) (1)	Do as d Arrange (A)	lirected: e according to increase in Adults (B) Childre	age: n (C)	Old pe		(D)	Young people	(5)
	(2)	(A) (e in ascending order of se City Suburban city	tlements: (B) Metropolitan city (D) Mega city					
	(3)		e types of industries accor Medium (B) Micro	rding to capital inve (C)	stment Small		orde (D)	r: Large scale	
	(4)		e administrative regions a /illage (B) State		ascendi Distric	_	(D)	Taluka	
	(5)	to non-	e the landuse with respec favourable factor: Barren land Cultivated land	t to growth in Gross (B) (D)	Grazin		GDP)	from favourable	
	(C)	Choose the correct option by identifying the correct co-relation in given statements: A: Assertion R: Reason							(5)
	(1)								

A: Broad base in population pyramid indicates higher number of children.
R: Broad apex in population pyramid indicates higher number of old people.

Both A and R are correct and R is the correct explanation of A.

Both A and R are correct but R is not the correct explanation of A.

(2)

(A)

(B)

(C) (D) Only A is correct.
Only R is correct.

1

(4) A: Humid climate in Mumbai is suitable for cotton textile industry. R: Mumbai is situated near Arabian Sea. (A) Only A is correct. (B) Only R is correct. (C) Both A and R are correct and R is the correct explanation of A. (D) Both A and R are correct but R is not the correct explanation of A. (5) A: Geographical location is necessary to an area. B: Geographical location is necessary to an area. B: Geographical location does not affect regional development. (A) Only R is correct. (B) Only R is correct. (C) Both A and R are correct and R is the correct explanation of A. (D) Both A and R are correct and R is the correct explanation of A. (D) Both A and R are correct but R is not the correct explanation of A. (D) Both A and R are correct but R is not the correct explanation of A. (D) Both A and R are correct but R is not the correct explanation of A. (D) Both A and R are correct but R is not the correct explanation of A. (D) Health (E) Primary economic activities — (A) Employment (B) Education (C) Census (D) Health (2) Primary economic activities — (A) Agriculture (B) Hunting (C) Fishing (D) Small scale industry (3) Factors favourable to cotton textile industry in Mumbai — (A) Mineral (C) Humid climate (B) Market (D) Supply of labour (4) Modern modes of communication — (A) Mobile (B) Television (C) Aeroplane (C) E-mail (5) Physical factors affecting the regional development — (A) Topography (B) Climate (C) Market (D) Water supply (C) Give geographical reasons (Any FOUR): (1) Population distribution is uneven. (2) Growth of city is related to the land use. (3) Lumbering activity has been developed in Canada. (4) Distribution of industries is uneven. (5) Regional development depends upon topography. (6) Tertiary economic activities are called service sector activities. (9.3) Distribution of industries is uneven. (1) Birth rate and Death rate. (2) Pull and Push factors of nigration. (3) Waterway transport and Airway transport. (4) Physical Geography and Human Geography. (5) Plantation agriculture and Extensive com			R: Po (A) (B) (C) (D)	pulation engaged in Only A is correct. Only R is correct. Both A and R are of Both A and R are of Both A and R are of Both A and R are of Both A are of	correct	and R is the co	orrect e	The state of the s	Α.		
B: Geographical location does not affect regional development. (A) Only A is correct. (B) Only R is correct. (C) Both A and R are correct and R is the correct explanation of A. (D) Both A and R are correct but R is not the correct explanation of A. (D) Both A and R are correct but R is not the correct explanation of A. (D) Identify the incorrect factors: (1) Factors affecting migration of population — (A) Employment (B) Education (C) Census (D) Health (2) Primary economic activities — (A) Agriculture (B) Hunting (C) Fishing (D) Small scale industry (3) Factors favourable to cotton textile industry in Mumbai — (A) Mineral (C) Humid climate (B) Market (D) Supply of labour (4) Modern modes of communication — (A) Mobile (B) Television (C) Aeroplane (C) E-mail (5) Physical factors affecting the regional development — (A) Topography (B) Climate (C) Market (D) Water supply (Q.2. Give geographical reasons (Any FOUR): (1) Population distribution is uneven. (2) Growth of city is related to the land use. (3) Lumbering activity has been developed in Canada. (4) Distribution of industries is uneven. (5) Regional development depends upon topography. (6) Tertiary economic activities are called service sector activities. Q.3. Distinguish between (Any TRIREE): (1) Birth rate and Death rate. (2) Pull and Push factors of migration. (3) Waterway transport and Airway transport. (4) Physical Geography and Human Geography. (5) Plantation agriculture and Extensive commercial agriculture. Q.4. (A) Mark and name the following on the map of the world with suitable index (Any SIX): (6) [11] Highly populated region in Australia. (2) Canal which connects Red sea and Mediterranean sea. Headquarter of Hindustan Lever Limited. (Mumbai port. (5) Country having highest life expectancy. (6) Mountainous region in South America. (7) Largest desert in the world.		(4)	 R: Mumbai is situated near Arabian Sea. (A) Only A is correct. (B) Only R is correct. (C) Both A and R are correct and R is the correct explanation of A. 								
(1) Factors affecting migration of population — (A) Employment (B) Education (C) Census (D) Health (2) Primary economic activities — (A) Agriculture (B) Hunting (C) Fishing (D) Small scale industry (3) Factors favourable to cotton textile industry in Mumbai — (A) Mineral (C) Humid climate (B) Market (D) Supply of labour (4) Modern modes of communication — (A) Mobile (B) Television (C) Aeroplane (C) E-mail (5) Physical factors affecting the regional development — (A) Topography (B) Climate (C) Market (D) Water supply (2) Give geographical reasons (Any FOUR): [12] (1) Population distribution is uneven. (2) Growth of city is related to the land use. (3) Lumbering activity has been developed in Canada. (4) Distribution of industries is uneven. (5) Regional development depends upon topography. (6) Tertiary economic activities are called service sector activities. Q.3. Distinguish between (Any THREE): [9] (1) Birth rate and Death rate. (2) Pull and Push factors of migration. (3) Waterway transport and Airway transport. (4) Physical Geography and Human Geography. (5) Plantation agriculture and Extensive commercial agriculture. Q.4. (A) Mark and name the following on the map of the world with suitable index (Any SIX): (6) [11] (1) Highly populated region in Australia. (2) Canal which connects Red sea and Mediterranean sea. (3) Headquarter of Hindustan Lever Limited. (4) Mumbai port. (5) Country having highest life expectancy. (6) Mountainous region in South America. (7) Largest desert in the world.		(5)	 B: Geographical location does not affect regional development. (A) Only A is correct. (B) Only R is correct. (C) Both A and R are correct and R is the correct explanation of A. 								
(A) Employment (B) Education (C) Census (D) Health (2) Primary economic activities —											
(A) Agriculture (B) Hunting (C) Fishing (D) Small scale industry (3) Factors favourable to cotton textile industry in Mumbai — (A) Mineral (C) Humid climate (B) Market (D) Supply of labour (4) Modern modes of communication — (A) Mobile (B) Television (C) Aeroplane (C) E-mail (5) Physical factors affecting the regional development — (A) Topography (B) Climate (C) Market (D) Water supply (2) Give geographical reasons (Any FOUR): [12] (1) Population distribution is uneven. (2) Growth of city is related to the land use. (3) Lumbering activity has been developed in Canada. (4) Distribution of industries is uneven. (5) Regional development depends upon topography. (6) Tertiary economic activities are called service sector activities. (2) Pull and Push factors of migration. (3) Waterway transport and Airway transport. (4) Physical Geography and Human Geography. (5) Plantation agriculture and Extensive commercial agriculture. (2) Q.4 (A) Mark and name the following on the map of the world with suitable index (Any SIX): (6) [11] (1) Highly populated region in Australia. (2) Canal which connects Red sea and Mediterranean sea. (3) Headquarter of Hindustan Lever Limited. (4) Mumbai port. (5) Country having highest life expectancy. (6) Mountainous region in South America. (7) Largest desert in the world.			(A)	Employment	(B)		(C)	Census	(D)	Health	
(A) Mineral (B) Market (D) Supply of labour (4) Modern modes of communication — (A) Mobile (B) Television (C) Aeroplane (C) E-mail (5) Physical factors affecting the regional development — (A) Topography (B) Climate (C) Market (D) Water supply (6) Topolation distribution is uneven. (7) Growth of city is related to the land use. (8) Lumbering activity has been developed in Canada. (9) Distribution of industries is uneven. (9) Regional development depends upon topography. (1) Birth rate and Death rate. (2) Pull and Push factors of migration. (3) Waterway transport and Airway transport. (4) Physical Geography and Human Geography. (5) Plantation agriculture and Extensive commercial agriculture. (9) Q.4. (A) Mark and name the following on the map of the world with suitable index (Any SIX): (6) [11] Highly populated region in Australia. (2) Canal which connects Red sea and Mediterranean sea. (3) Headquarter of Hindustan Lever Limited. (4) Mumbai port. (5) Country having highest life expectancy. (6) Mountainous region in South America. (7) Largest desert in the world.		(2)				Hunting	(C)	Fishing	(D)	Small scale inde	ustry
(A) Mobile (B) Television (C) Aeroplane (C) E-mail (5) Physical factors affecting the regional development — (A) Topography (B) Climate (C) Market (D) Water supply (7) Give geographical reasons (Any FOUR): (1) Population distribution is uneven. (2) Growth of city is related to the land use. (3) Lumbering activity has been developed in Canada. (4) Distribution of industries is uneven. (5) Regional development depends upon topography. (6) Tertiary economic activities are called service sector activities. (2) Pull and Push factors of migration. (3) Waterway transport and Airway transport. (4) Physical Geography and Human Geography. (5) Plantation agriculture and Extensive commercial agriculture. (2) Q.4. (A) Mark and name the following on the map of the world with suitable index (Any SIX): (1) Highly populated region in Australia. (2) Canal which connects Red sea and Mediterranean sea. (3) Headquarter of Hindustan Lever Limited. (4) Mumbai port. (5) Country having highest life expectancy. (6) Mountainous region in South America. (7) Largest desert in the world.		(3)	(A)	Mineral	tton te	extile industry in	(C)	Humid climate			
(A) Topography (B) Climate (C) Market (D) Water supply Q.2. Give geographical reasons (Any FOUR): (1) Population distribution is uneven. (2) Growth of city is related to the land use. (3) Lumbering activity has been developed in Canada. (4) Distribution of industries is uneven. (5) Regional development depends upon topography. (6) Tertiary economic activities are called service sector activities. Q.3. Distinguish between (Any THREE): (1) Birth rate and Death rate. (2) Pull and Push factors of migration. (3) Waterway transport and Airway transport. (4) Physical Geography and Human Geography. (5) Plantation agriculture and Extensive commercial agriculture. Q.4. (A) Mark and name the following on the map of the world with suitable index (Any SIX): (1) Highly populated region in Australia. (2) Canal which connects Red sea and Mediterranean sea. (3) Headquarter of Hindustan Lever Limited. (4) Mumbai port. (5) Country having highest life expectancy. (6) Mountainous region in South America. (7) Largest desert in the world.		(4)					(C)	Aeroplane	(C)	E-mail	
 Population distribution is uneven. Growth of city is related to the land use. Lumbering activity has been developed in Canada. Distribution of industries is uneven. Regional development depends upon topography. Tertiary economic activities are called service sector activities. Distinguish between (Any THREE): Birth rate and Death rate. Pull and Push factors of migration. Waterway transport and Airway transport. Physical Geography and Human Geography. Plantation agriculture and Extensive commercial agriculture. Q.4. (A) Mark and name the following on the map of the world with suitable index (Any SIX): Highly populated region in Australia. Canal which connects Red sea and Mediterranean sea. Headquarter of Hindustan Lever Limited. Mumbai port. Country having highest life expectancy. Mountainous region in South America. Largest desert in the world. 		(5)	100						(D)	Water supply	
(2) Growth of city is related to the land use. (3) Lumbering activity has been developed in Canada. (4) Distribution of industries is uneven. (5) Regional development depends upon topography. (6) Tertiary economic activities are called service sector activities. Q.3. Distinguish between (Any THREE): (1) Birth rate and Death rate. (2) Pull and Push factors of migration. (3) Waterway transport and Airway transport. (4) Physical Geography and Human Geography. (5) Plantation agriculture and Extensive commercial agriculture. Q.4. (A) Mark and name the following on the map of the world with suitable index (Any SIX): (1) Highly populated region in Australia. (2) Canal which connects Red sea and Mediterranean sea. (3) Headquarter of Hindustan Lever Limited. (4) Mumbai port. (5) Country having highest life expectancy. (6) Mountainous region in South America. (7) Largest desert in the world.	Q.2.					5					[12]
(3) Lumbering activity has been developed in Canada. (4) Distribution of industries is uneven. (5) Regional development depends upon topography. (6) Tertiary economic activities are called service sector activities. Q.3. Distinguish between (Any THREE): (1) Birth rate and Death rate. (2) Pull and Push factors of migration. (3) Waterway transport and Airway transport. (4) Physical Geography and Human Geography. (5) Plantation agriculture and Extensive commercial agriculture. Q.4. (A) Mark and name the following on the map of the world with suitable index (Any SIX): (1) Highly populated region in Australia. (2) Canal which connects Red sea and Mediterranean sea. (3) Headquarter of Hindustan Lever Limited. (4) Mumbai port. (5) Country having highest life expectancy. (6) Mountainous region in South America. (7) Largest desert in the world.											
(4) Distribution of industries is uneven. (5) Regional development depends upon topography. (6) Tertiary economic activities are called service sector activities. Q.3. Distinguish between (Any THREE): (1) Birth rate and Death rate. (2) Pull and Push factors of migration. (3) Waterway transport and Airway transport. (4) Physical Geography and Human Geography. (5) Plantation agriculture and Extensive commercial agriculture. Q.4. (A) Mark and name the following on the map of the world with suitable index (Any SIX): (1) Highly populated region in Australia. (2) Canal which connects Red sea and Mediterranean sea. (3) Headquarter of Hindustan Lever Limited. (4) Mumbai port. (5) Country having highest life expectancy. (6) Mountainous region in South America. (7) Largest desert in the world.			·								
(6) Tertiary economic activities are called service sector activities. Q.3. Distinguish between (Any THREE): (1) Birth rate and Death rate. (2) Pull and Push factors of migration. (3) Waterway transport and Airway transport. (4) Physical Geography and Human Geography. (5) Plantation agriculture and Extensive commercial agriculture. Q.4. (A) Mark and name the following on the map of the world with suitable index (Any SIX): (1) Highly populated region in Australia. (2) Canal which connects Red sea and Mediterranean sea. (3) Headquarter of Hindustan Lever Limited. (4) Mumbai port. (5) Country having highest life expectancy. (6) Mountainous region in South America. (7) Largest desert in the world.											
 Q.3. Distinguish between (Any THREE): Birth rate and Death rate. Pull and Push factors of migration. Waterway transport and Airway transport. Physical Geography and Human Geography. Plantation agriculture and Extensive commercial agriculture. Q.4. (A) Mark and name the following on the map of the world with suitable index (Any SIX): Highly populated region in Australia. Canal which connects Red sea and Mediterranean sea. Headquarter of Hindustan Lever Limited. Mumbai port. Country having highest life expectancy. Mountainous region in South America. Largest desert in the world. 											
 (1) Birth rate and Death rate. (2) Pull and Push factors of migration. (3) Waterway transport and Airway transport. (4) Physical Geography and Human Geography. (5) Plantation agriculture and Extensive commercial agriculture. Q.4. (A) Mark and name the following on the map of the world with suitable index (Any SIX): (1) Highly populated region in Australia. (2) Canal which connects Red sea and Mediterranean sea. (3) Headquarter of Hindustan Lever Limited. (4) Mumbai port. (5) Country having highest life expectancy. (6) Mountainous region in South America. (7) Largest desert in the world. 				•		e called service	sector	activities.			[0]
(2) Pull and Push factors of migration. (3) Waterway transport and Airway transport. (4) Physical Geography and Human Geography. (5) Plantation agriculture and Extensive commercial agriculture. Q.4. (A) Mark and name the following on the map of the world with suitable index (Any SIX): (1) Highly populated region in Australia. (2) Canal which connects Red sea and Mediterranean sea. (3) Headquarter of Hindustan Lever Limited. (4) Mumbai port. (5) Country having highest life expectancy. (6) Mountainous region in South America. (7) Largest desert in the world.	Q.3.		_								[a]
(4) Physical Geography and Human Geography. (5) Plantation agriculture and Extensive commercial agriculture. Q.4. (A) Mark and name the following on the map of the world with suitable index (Any SIX): (6)[11] (1) Highly populated region in Australia. (2) Canal which connects Red sea and Mediterranean sea. (3) Headquarter of Hindustan Lever Limited. (4) Mumbai port. (5) Country having highest life expectancy. (6) Mountainous region in South America. (7) Largest desert in the world.						ion.					
 (5) Plantation agriculture and Extensive commercial agriculture. Q.4. (A) Mark and name the following on the map of the world with suitable index (Any SIX): (1) Highly populated region in Australia. (2) Canal which connects Red sea and Mediterranean sea. (3) Headquarter of Hindustan Lever Limited. (4) Mumbai port. (5) Country having highest life expectancy. (6) Mountainous region in South America. (7) Largest desert in the world. 											
 Q.4. (A) Mark and name the following on the map of the world with suitable index (Any SIX): Highly populated region in Australia. Canal which connects Red sea and Mediterranean sea. Headquarter of Hindustan Lever Limited. Mumbai port. Country having highest life expectancy. Mountainous region in South America. Largest desert in the world. 											
 Highly populated region in Australia. Canal which connects Red sea and Mediterranean sea. Headquarter of Hindustan Lever Limited. Mumbai port. Country having highest life expectancy. Mountainous region in South America. Largest desert in the world. 	0.4										
 (2) Canal which connects Red sea and Mediterranean sea. (3) Headquarter of Hindustan Lever Limited. (4) Mumbai port. (5) Country having highest life expectancy. (6) Mountainous region in South America. (7) Largest desert in the world. 											
 (4) Mumbai port. (5) Country having highest life expectancy. (6) Mountainous region in South America. (7) Largest desert in the world. 											
 (5) Country having highest life expectancy. (6) Mountainous region in South America. (7) Largest desert in the world. 											
(6) Mountainous region in South America.(7) Largest desert in the world.											
(7) Largest desert in the world.											

(3)

A: India is agrarian country.

(B) Read the following map and answer the questions given below:

Questions:

- (1) Which hemisphere has highest number of industrial regions?
- (2) Name the industrial region in eastern Australia.
- (3) Give the name of any two industrial regions in Asia.
- (4) In which continent Venezuela industrial region lies?
- (5) In which continent New England industrial region lies?

Q.5. Write notes on the following (Any THREE):

[12]

(5)

- (1) Problems of urban settlements
- (2) Intensive subsistence agriculture
- (3) Importance of artificial satellites in telecommunication
- (4) Occupational structure of population
- (5) Role of transport in development of industries

Q.6. (A) Read the following passage and answer the questions given below:

(4)[8]

Agriculture: 'A Primary Activity'

When we look at the distribution of agriculture as an occupation in the world, we see that the proportion of people engaged in agriculture is maximum in Africa and then in Asia. Though the area under agriculture is more extensive in Europe, the America and Australia; the percentage of population engaged in the activity is very less. Generally, the developed countries of the world have less population engaged in agriculture while the share of population engaged in agriculture is higher in developing countries.

Various crops are produced in the different parts of the world. Various physical and socio-economic factors influence the development of agriculture. Various agricultural methods are found everywhere. Major physical factors that influence agriculture are climate, topography, soil and biotic factors. The economic and social factors include labour, market, capital, transportation facilities, storage facilities, government policies, population, ownership of land etc. According to these factors, the cropping pattern changes.

Questions:

- (1) In which continent there is less development of agriculture?
- (2) Which are the factors affecting agricultural practice?
- (3) In which continent the percentage of population engaged in agriculture is highest?
- (4) Which are the economic and social factors affecting agricultural practices?

(B) Draw neat, labelled diagrams (Any TWO):

(4)

Linear settlement.

- Skills of geographers (any five).
- (3) Provision of infrastructure and stimulus to minimize regional imbalance.

Q.7. Answer the following question in detail (Any ONE):

[8]

- (1) Explain the physical factors affecting the distribution of population. Give suitable example.
- (2) Explain the nature of geography in detail.
